Ahmet Emir Şener

senerahmetemir@gmail.com
+90 539 487 94 63

Education

Boğaziçi University — İstanbul, Turkey
M.S. in Industrial Engineering GPA: 3.94/4.00 — January 2025 – Present

- **Thesis:** New Convex Relaxations for Global Optimization Problems in Water Networks
- **Advisors:** Necati Aras and Burak Kocuk

B.S. in Industrial Engineering GPA: 3.64/4.00 — September 2021 – January 2025

- **Thesis:** Assessment of alternative bidding strategies in multi-actor context of the Turkish Electricity Market
- **Advisors:** Gönenç Yücel and Mustafa Gökçe Baydoğan

Üsküdar American Academy — İstanbul, Turkey
High School Diploma — September 2016 – June 2021

Refereed Conference Proceedings

1. **Ahmet Emir Şener** and Gönenç Yücel (2025). A Dynamic Model of Workforce Management During Seasonal Epidemics. In *Proceedings of the International System Dynamics Conference*, Boston, USA.

Manuscripts

1. **Ahmet Emir Şener**, Burak Kocuk, and Tuğçe Yüksel (2026). Benders Decomposition with Partial Non-Anticipativity Relaxation for Multi-Stage Stochastic Clean Energy Transition Planning. Submitted to *European Journal of Operational Research*. arXiv:2608.14105.
2. **Ahmet Emir Şener**, Burak Kocuk, and Tuğçe Yüksel (2025). A Dynamic Strategic Plan for Transition to Campus-Scale Clean Electricity Using Multi-Stage Stochastic Programming. Submitted to *Sustainable Energy Technologies and Assessments*. arXiv:2506.16423.

Conference and Workshop Presentations

1. New Convex Relaxations for Global Optimization Problems in Water Networks. Workshop on Graph Theory and Its Applications XIII, Boğaziçi University, İstanbul, Turkey, October 2026.
2. Benders Decomposition with Partial Non-Anticipativity Relaxation for Multi-Stage Stochastic Clean Energy Transition Planning. YAEM 2026, İstanbul Technical University, İstanbul, Turkey, July 2026.
3. A Dynamic Strategic Plan for Transition to Campus-Scale Clean Electricity Using Multi-Stage Stochastic Programming. YAEM 2025, Gazi University, Ankara, Turkey, June 2025.
4. Clean Electricity Transition under Technology Cost and Efficiency Uncertainty for Distributed Energy Systems. YAEM 2024, Karadeniz Technical University, Trabzon, Turkey, October 2024.

Academic Appointments

Boğaziçi University — İstanbul, Turkey
Department of Industrial Engineering

- Graduate Teaching Assistant — September 2025 – January 2026
  IE 550 – Dynamics of Socio-Economic Systems
- Undergraduate Teaching Assistant — September 2024 – January 2025
  IE 306 – Systems Simulation

Funding and Scholarships

Sabancı University — İstanbul, Turkey

Research Scholar

- New Convex Relaxations for Global Optimization Problems in Water Networks, TÜBİTAK Program 1001 — February 2026 – Present
- Strategic Planning for Transition to Next Generation Clean Energy Technologies using Multi-Stage Stochastic Programming, TÜBİTAK Program 1001 — February 2024 – February 2026

Sports Scholarship, Üsküdar American Academy — September 2018 – June 2021

Industry Experience

Icron Technologies — August – September 2023

- Developed an LLM integration using OpenAI API function calling to answer natural-language queries about ICRON's mathematical optimization model results.

Birleşim Mühendislik — June – September 2022

- Developed mathematical formulations to calculate or approximate the sheet metal surface area required for steel air ducts and integrated them using the AutoCAD API.
